Fashion for Everybody & Every Body

## Personalized prosthetic covers

AN\*TOMIC STUDIOS

## One-of-a-kind. Just like you.

For us, it's all about the personal touch. There is no "one size fits all", especially when it comes to expressing who you are. That's why we want to create design that truly highlights the person who will wear it. Through digital craftsmanship, prosthetic know-how, 3D technology and a focus on individual style, we want to give you endless possibilities to add a personal touch to your prosthetic appearance - all our covers are tailored to your unique anatomy, prosthesis and design wishes. Carefully created and with a whole bunch of heart. Always.

### On the cover

Model: Elin Rantatalo (@elin\_rantatalo)  
Design: Dew  
Color: Champagne gold
